

Johnjay & Rich

ASTROLOGICALLY REVEALED

BY : DAVE CAMPBELL

Johnjay is a Virgo, and **Rich** is a Pisces making this dynamic duo, complete polar opposites. They have been together as a team for years, on **KISS fm 104.7** and **93.7 KRQ** and have made the show Arizona's number one morning show. How does a pair of opposites make the show work? What does each bring to the table? We will take an astrological look at each individual to see how they make the morning show a huge success.

Johnjay's rising sign (your outer personality, and how others see you) is in the sign of Cancer, which gives Johnjay an emotional, sympathetic, and feeling overtone to his personality. Cancer risings are the nurturers and caretakers of the zodiac. You could call him "Mr. Mom" who is very family oriented with a strong sense of intuition. Although Cancer risings can be moody at times as their feelings are always fluctuating. Underneath the mask of the rising sign is the Sun sign (describing your inner self and what you strive to become). Johnjay falls under the Sun sign of Virgo, the virgin, don't let that fool you, though. The archetype of Virgo is of the "perfectionist" always striving to improve himself and situations. Johnjay is well organized, a planner, methodical, very analytical, and usually very clean to a fault. Most Virgos are health and hygiene conscious, lysol is their best friend.

All signs have a positive side and a negative side, it is our free will how we express the energies, most of us go back and forth. Having said that, some of the Virgo negative traits Johnjay may express at times are, skeptical, fault finding, overly critical and obsessive compulsive. Don't drink out of his marked cup, or put your genny hands in his bag of chips!

Johnjay has the planet Jupiter next to the Sun in his chart which gives him a great sense of humor, and interests in philosophy and religion, and best of all brings him good luck in his endeavors. Johnjay's Sun falls in his third house in his chart which is the house of communications! A perfect placement for a radio DJ where he shines. Since Mercury is the planet of communications and the way we process our thoughts, I thought it would be good to look at each of their Mercury's.

Johnjay's Mercury is in the air sign Libra giving him a very diplomatic and balanced view in his deliverance, as well as a pleasant voice.

Rich's rising sign is Aquarius, an intellectual, talkative, and all knowing air sign. This rising sign is the most eccentric of them all, friendly and sociable yet detached and aloof. Aquarius risings are progressive and usually ahead of their time, liking the latest fads until they become the norm, then when the rest of us finally catch up he has moved onto some new trend. It has been said that Aquarius risings are rebels with or without a cause, I would suspect that if Rich feels stifled or boxed in he will rebel or detach emotionally from the situation.

Rich's Mercury is also very prominently placed in his chart giving him the gift of gab, and explains his career choice as a radio DJ, being that Mercury is the planet of communications. Rich's Mercury is also in Aquarius, making him a progressive thinker, and brilliant with new

To sum up this pair of opposites I would say this is the combination that makes this team work so well. Johnjay and Rich seem to balance each other out. Rich sees the big picture while Johnjay sees the small details.

ideas and inventions.

Rich was born under the Sun sign of Pisces (the fish), an emotional based water sign. Rich is very sensitive with a strong imagination and a sense of intuition. Pisces are very adaptable to any environment; thus giving them the reputation of a chameleon, they make great actors naturally. Rich is highly romantic and idealistic following some blissful dream. Rich brings the right brain creative side to the equation as he is a visionary person. On the down side of Pisces is escapist tendencies, sometimes hypersensitive, overactive imagination, and have a hard time establishing solid boundaries like deadlines, they hate them. Rich most likely has a strong interest in art, music and theater, as well as spirituality, and prayer as most Pisces do. His Sun is in his first house of personality, making Rich very outgoing and expressive, unusual for most Pisces.

To sum up this pair of opposites I would say this is the combination that makes this team work so well. Johnjay and Rich seem to balance each other out. Rich sees the big picture while Johnjay sees the small details. Johnjay is left brained, while Rich is the right brain working together to make it all happen. They both have a lot of astrological similarities as well as opposites which make them a dynamic duo. Their success is certainly written in the stars!
