

# Your Zodiac Pets Sign

By: Dave Campbell

**Aries-** Aries pets are assertive, sometimes aggressive; they are adventurous and need lots of activity. They are the "Alpha" pet in the family. Aries pets love to chase and conquer, play catch, or chase string. They will head butt you if you don't pay attention.

**Taurus-** The sign of the bull loves to relax, lounge, have routines, and regular meal times.

They are calm, very loyal and love consistency in their lives. Sometimes they are boring or lazy as they love comfort.

Taurus can be bull headed, and have a hard time with change. They usually have a pleasant voice, barking, chirping or meowing.

**Gemini-** If you have a Gemini pet you will know it! They are constantly chattering, and very curious, into everything and will get bored very easily. They need stimulation and new things daily, with lots of attention as a contrast to Taurus. They may steal your belongings and put them with theirs, of course they know this makes you crazy!

**Cancer-** The crab sign is the nurturers and caretakers of the zodiac, they are perfect for people with children as they are very loving. They are on the quiet side as crabs are a mute sign. They love to be on your lap, held, and can be needy. Cancer pets can be ultra sensitive and moody.

**Leo-** The lion is the king of the castle, and you live in his den! They are vain and love to be groomed, along with a shiny collar and diamond leash. They have a proud walk and strong stance. Enter them into a contest they love the stage!

Leos also being a fire sign need lots of action, walks, and are very good with children. High maintenance for sure!

**Virgo-** The finicky creatures are picky eaters, but are usually very easy to take care of as they are clean and neat. Virgo pets actually like baths! They are methodical even in the way they eat their food. Keep the sleeping area or cage clean or they will get distressed.

This sign along with Capricorn make good working animals, police dogs, etc.

**Libra-** Your Libra pet is easy to get along with just about anyone, people or other animals. They are the nice guys of the zodiac. This sign does not like being alone and needs to have a partner. Libra pets need a calm atmosphere, with lots of pleasing colors. This is one of the talkative signs.

**Scorpio-** Scorpio pets are on a power trip and they are usually the winner! These pets are usually quiet with a fixed gaze. They love you deeply and have a jealous streak if you pay attention to other animals and in some cases people. They will get even if you leave them alone too long, by leaving you a surprise! Scorpios are usually quiet.

**Sagittarius-** Sagittarians love the outdoors, and are fun loving always looking forward to travel by foot or car. They often have stripes on them. Sagittarius pets love to take hikes, walks, games of catch, sports and swimming. Make sure you keep these fun loving animals very busy. They can be oversized or have weight problems regardless of breed.

**Capricorn-** The goats make good working pets, like seeing eye dogs, police or search and rescue dogs, or plow horses. They like to have purpose. They rarely play for the sake of fun. They do like climbing things or doing challenging tasks, and also like the reward

(treat) for a job well done. You can train them to get your paper.

**Aquarius-** Man's best friend was named for Aquarius pets. They are everyone's friend regardless of breed. They usually don't behave the way the rest of their breed does. They want to be in the group, yet they are usually the loners, and aloof to attention so long as

you let them be with the family. Being part of the air sign group, they are very intelligent and have creative ways of doing things. They love freedom and hate being caged.

**Pisces-** The sign of the fish, they are very sensitive and emotional. They feel everything that you're feeling and what is going on in the environment around them. They are also the chameleons and can blend in with most families. They are lazy, day dreamy, and like to stare at walls, as they are seeing things we can not. They are your psychic pet, or in other words you're familiar. They are escape artists and can disappear for hours.
